

Environment, health and safety activities, roles and responsibilities will be fully integrated into our business through the deployment of, and continuous improvement in appropriate standards, practices and procedures. Our people will be trained, empowered and held accountable for their respective roles in the effective EH&S management and operation of our business. Our relationships with contractors, suppliers and vendors will be based on shared values and common goals, and will reflect the value we place on the health and safety of all participants in our business.

Everyone who works for Pacific Petroleum Products is responsible for protecting the environment and the health and safety of our People, customers and communities worldwide. Our commitment to EH&S performance is an integral part of our business, and achieving cost-effective EH&S solutions is essential to our long-term success.

We are committed to:

- Eliminating accidents and environmental incidents
- Reducing emissions and waste
- Using energy and other natural resources efficiently
- Being prepared to respond to emergencies
- Evaluating our products and educating our employees, customers and the public on their safe and environmentally responsible use
- Helping our employees, contractors, business partners, vendors and service providers understand how their actions influence EH&S performance
- Communicating with our neighbours and others about our EH&S programs and performance
- Continuously improving our EH&S performance through effective management systems
- Recognising outstanding EH&S performance
- These commitments are in addition to our basic obligation to comply with all environmental, health and safety laws and regulations.

We conduct our business with integrity and all employees are expected to conduct business in a manner consistent with all applicable laws.
